

**Love's a much-used little word, by adult, child and teen;
But what would be your answer if asked "What does love mean?"**

**Each person is so different, I'm sure it's safe to say
That every individual would see 'Love' their own way.**

**When we are young we need to know we're loved by Mom and
Dad;**

I wish that every child could have the kind of love I've had.

**Some people say they 'love' a food, and some may 'love' to run,
Some say they 'loved' a movie, some 'love' to just have fun.**

**There's 'puppy' love, and 'first' love, all kinds of love we know;
We hope we'll find that special love and to the altar go.**

**And then, if God should bless us, we parents may become,
And once we are, we know this love's a special one.**

So now we love our children, our neighbors, and our friends,

And still there's love to give that grandchild God may send.

**But all these things cannot compare to that One Precious Love;
The love that came through Jesus---sent down from God above.**

**Our Jesus died upon a cross, His very Life He gave;
You ask, "Why did He do this?" "He died for us to save".**

**I know that I'm not worthy, but I know that it is true;
The Bible tells us clearly that God loves me and you.**

**Love may be just a little word to adult, child and teen,
But Jesus died, and it's for sure, no greater Love has been.**
